

# Yacine FETHI

## Web Developer Bachelor

### Education

**Bachelor multimedia developer** L'Ecole multimédia Paris / From 2016 to 2019

Multiple Laravel Projects

Class project Colony24:

Realization of a management game in HTML/CSS, JS and PHP.

I took care of the back/DB part with PHP and MySQL/MariaDB.

Duo project Robin-Cook:

Realization of a little platformer game with JS, Phaser.io and the discovery of NodeJS and Webpack

Solo project Circular Pong:

Realization of a little arcade game with JS and Phaser.io

**Baccalauréat STMG** Lycée Guy de Maupassant Colombes / July 2014

Mention: Pretty good

### Work experience

**Developer** DTConsulting Paris / Since April 2019

Development of the ticketing screens of sports event organizers.

Made with C# and Javascript. Migration from WebForm to MVC.

**Web developer** TEAMWILL CONSULTING Tunis / From October 2018 to April 2019

- Creation of a forum / FAQ back (NodeJS,Socket.io) and front (Angular, Socket.io-client).
- Participation in the creation of a web-app JHipster and Angular for batch launching management.

**Web developer** Bfirst Colombes, France / From April 2018 to June 2018

Development of Tracify, a professional internal mission management web app for accounting firms. The back is in Python(Framework Django, PostgreSQL) and the front with Bootstrap. I was responsible of the integration.
